

ECOSE® TECHNOLOGY IN USE

» The mineral wool and the binder without the addition of formaldehyde is not just quick and easy to install but also has a pleasant smell. Furthermore, the appearance of fluff and dust was very low. We will definitely continue to use the products with ECOSE® Technology. «

INSULATION MATERIALS FOR GREATER SUSTAINABILITY

Mineral wool with natural binders

As the first manufacturer in the area of technical insulations, we are proud to be able to offer our whole range of insulation materials with a natural binder. Contrary to conventional phenol-formaldehyde resin binders, our tried-and-tested ECOSE® Technology is predominantly based on natural, organic raw materials. In doing so, products with ECOSE® Technology offer numerous advantages at the highest industry level with regards to handling as well as sustainability.

Experience it yourself!

ALL BENEFITS AT A GLANCE

* In a survey, installers stated that mineral wool insulation materials with ECOSE® Technology are more pleasant to use, less itchy and have a more discreet smell compared to conventional insulation materials.

Outstanding quality
