Glass Blowing Mineral Wool
SAFETY DATA SHEET
Glass Blowing Mineral Wool

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier
- Knauf Insulation Glass mineral wool

Product name Glass Blowing Mineral Wool
Product number KI_DP_109

1.2. Relevant identified uses of the substance or mixture and uses advised against

Identified uses Thermal and/or acoustic insulation for use in technical applications, industrial applications and in building construction.

1.3. Details of the supplier of the safety data sheet

Supplier Knauf Insulation
Am Bahnhof
97346 Iphofen
Germany
sds@knaufinsulation.com
Tel: +32 4 379 02 31
www.knaufinsulation.com

Region UK

Country Contact Tel: +44 (0) 1744 766 666
technical.uk@knaufinsulation.com

1.4. Emergency telephone number

Emergency telephone Tel: +44 (0) 1744 766 666
(Monday - Friday, 08:00 hrs - 17:00 hrs)
Glass Blowing Mineral Wool

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture
Classification (EC 1272/2008)
Physical hazards Not Classified
Health hazards Not Classified
Environmental hazards Not Classified

2.2. Label elements
Hazard statements NC Not Classified

The following sentences and pictograms are printed on packaging
The mechanical effect of fibres in contact with skin may cause temporary itching.

http://www.knaufinsulation.com/comfort-and-handling

2.3. Other hazards
Specific hazards Not applicable.
**Glass Blowing Mineral Wool**

### SECTION 3: Composition/information on ingredients

#### 3.2. Mixtures

**Classification**
Not Classified

For full text of H-statements: see SECTION 16.

**Ingredient notes**

(1) 650-016-00-2 - Man made vitreous (silicate) fibres with random orientation with alkaline oxide and alkali earth oxide (Na₂O+K₂O+CaO+MgO+BaO) content greater than 18% by weight meeting the requirements of Note Q of regulation n° 1272/2008 and therefore not classified carcinogenicity.

CAS: Chemical Abstracts Service.

**Other information**
Possible facing materials: Polyethylene film.
Glass Blowing Mineral Wool

**SECTION 4: First aid measures**

4.1. Description of first aid measures

**Inhalation**  
Remove from exposure. Rinse the throat and clear dust from airways.

**Ingestion**  
Drink plenty of water if accidentally ingested.

**Skin contact**  
If mechanical irritation occurs, remove contaminated clothing and wash skin gently with cold water and soap.

**Eye contact**  
Rinse abundantly with water for at least 15 minutes.

4.2. Most important symptoms and effects, both acute and delayed

**General information**  
The mechanical effect of fibres in contact with skin may cause temporary itching.

4.3. Indication of any immediate medical attention and special treatment needed

**General information**  
If any adverse reaction or discomfort continues from any of the above exposures, seek professional medical advice.

**SECTION 5: Firefighting measures**

5.1. Extinguishing media

**Suitable extinguishing media**  
Water, foam, carbon dioxide (CO2), and dry powder.

5.2. Special hazards arising from the substance or mixture

**General information**  
Products do not pose a fire hazard in use; however, some packaging materials or facings may be combustible. Products of combustion from product and packaging - carbon dioxide, carbon monoxide and some trace gases such as ammonia, nitrogen oxides and volatile organic substances.

5.3. Advice for firefighters

**General information**  
In large fires in poorly ventilated areas involving packaging materials respiratory protection / breathing apparatus may be required.

**SECTION 6: Accidental release measures**

6.1. Personal precautions, protective equipment and emergency procedures

**Personal precautions**  
In case of presence of high concentrations of dust, use the same personal protective equipment as mentioned in section 8.

6.2. Environmental precautions

**Environmental precautions**  
Not relevant.

6.3. Methods and material for containment and cleaning up

**Methods for cleaning up**  
Vacuum cleaner or dampen down with water spray prior to brushing up.

6.4. Reference to other sections

**Reference to other sections**  
For personal protection, see Section 8. For waste disposal, see Section 13.
Glass Blowing Mineral Wool

SECTION 7: Handling and storage

7.1. Precautions for safe handling
Usage precautions Avoid unnecessary handling of unwrapped product.

7.2. Conditions for safe storage, including any incompatibilities
Storage precautions To ensure optimum product performance; when packaging is removed or opened; products should be stored inside or covered to protect them from ingress of rain water or snow. Storage arrangements should ensure stability of stacked products and use on a first in first out basis (FIFO) is recommended.
Delivered packed in polyethylene film and or on wooden pallets.

Incompatible materials No specific material or group of materials is likely to react with the product to produce a hazardous situation.

7.3. Specific end use(s)
Specific end use(s) Thermal and/or acoustic insulation for use in technical applications, industrial applications and in building construction.

SECTION 8: Exposure Controls/personal protection

8.1. Control parameters
Occupational exposure limits
Glass Mineral Wool
Long-term exposure limit (8-hour TWA): WEL 2 fibres/ml  5 mg/m³ Machine-made mineral fibre (except for refractory ceramic fibres and special purpose fibres)
WEL = Workplace Exposure Limit
None at European level, refer to member state guidelines and legislation.

8.2. Exposure controls
Appropriate engineering controls No specific measures.

Eye/face protection Use goggles especially if working above shoulders. Eye protection according to EN 166 is advised.

Hand protection Use gloves to avoid itching in conformity with EN 388.

Other skin and body protection Cover exposed skin.

Hygiene measures After contact, wash hands with cold water and soap.

Respiratory protection Wearing a face mask type in accordance with EN 149 FFP1 is recommended when using products in confined atmosphere or during operations which can generate emission of any dust.
Glass Blowing Mineral Wool

SECTION 9: Physical and Chemical Properties

9.1. Information on basic physical and chemical properties

**Appearance**
Solid. Glass mineral wool fibres in polyethylene bags

**Colour**
White. / Grey. / Blue.

**Odour**
Not relevant.

**Odour threshold**
No data available.

**pH**
Not relevant.

**Melting point**
Not relevant.

**Initial boiling point and range**
Not relevant.

**Flash point**
Not relevant.

**Evaporation rate**
Not relevant.

**Flammability (solid, gas)**
Not relevant.

**Upper/lower flammability or explosive limits**
Not relevant.

**Vapour pressure**
Not relevant.

**Vapour density**
Not relevant.

**Pack density**
≈ 161.4 kg/m³

**Solubility**
Generally chemically inert and insoluble in water.

**Auto-ignition temperature**
Not relevant.

**Decomposition Temperature**
Not relevant.

**Viscosity**
Not relevant.

**Explosive properties**
Not relevant.

**Oxidising properties**
Not relevant.

9.2. Other information

**Devitrification temperature**
1000°C

**Softening temperature**
600°C

**Nominal diameter of fibres**
2 - 5 μm

**Length weight geometric mean diameter less 2 standard errors**
< 6 μm

**Orientation of fibres**
Random
Glass Blowing Mineral Wool

SECTION 10: Stability and reactivity

10.1. Reactivity
Reactivity None.

10.2. Chemical stability
Stability None.

10.3. Possibility of hazardous reactions
Possibility of hazardous reactions None in normal conditions of use.

10.4. Conditions to avoid
Conditions to avoid None.

10.5. Incompatible materials
Materials to avoid None.

10.6. Hazardous decomposition products
Hazardous decomposition products None in normal conditions of use.

SECTION 11: Toxicological information

11.1. Information on toxicological effects
Toxicological effects The mechanical effect of fibres in contact with skin may cause temporary itching.

General information Classification not applicable for this product; in accordance with European Regulation 1272/2008, note Q.
**Glass Blowing Mineral Wool**

## SECTION 12: Ecological Information

**12.1. Toxicity**

*Toxicity*  
This product is not ecotoxic to air, water or soil, by composition.

**12.2. Persistence and degradability**

*Persistence and degradability*  
Inert inorganic product - Anti-dust, antistatic and hydrophobic.  
< 0.75% Organic Content.

**12.3. Bioaccumulative potential**

*Bioaccumulative potential*  
Will not bioaccumulate.

**12.4. Mobility in soil**

*Mobility*  
Not considered mobile. Less than 1% leachable organic carbon if landfilled.

**12.5. Results of PBT and vPvB assessment**

*Results of PBT and vPvB assessment*  
Not relevant.

**12.6. Other adverse effects**

*Other adverse effects*  
None known.

## SECTION 13: Disposal considerations

**13.1. Waste treatment methods**

*General information*  
[17 06 04] Waste codes should be assigned by the user, preferably in discussion with the waste disposal authorities.

*Disposal methods*  
Dispose of in accordance with regulations and procedures in force in country of use or disposal.
Glass Blowing Mineral Wool

SECTION 14: Transport information

General
The product is not covered by international regulations on the transport of dangerous goods (IMDG, IATA, ADR/RID).

14.1. UN number
Not applicable.

14.2. UN proper shipping name
Not applicable.

14.3. Transport hazard class(es)
No transport warning sign required.

14.4. Packing group
Not applicable.

14.5. Environmental hazards
Environmentally hazardous substance/marine pollutant
No.

14.6. Special precautions for user
Not applicable.

14.7. Transport in bulk according to Annex II of MARPOL and the IBC Code
Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code
Not applicable.
Glass Blowing Mineral Wool

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

EU legislation

The European Regulation on Chemicals No 1907/2006, Registration, Evaluation, Authorisation of Chemicals (REACH) enacted on June 1st 2007 requires the provision of Safety Data Sheet (SDS) for hazardous substances and mixtures / preparations. Knauf Insulation mineral wool products (panels, batts or rolls), are defined as articles under REACH and therefore a Safety Data Sheet for these products is not a legal requirement. In accordance with industry practice and voluntary commitments, Knauf Insulation has decided to continue to provide its customers with the appropriate information for the purpose of assuring safe handling and use of mineral wool throughout the product life.

15.2. Chemical safety assessment

Not relevant.

SECTION 16: Other information

Abbreviations and acronyms used in the safety data sheet

ADR: European Agreement concerning the International Carriage of Dangerous Goods by Road.
ATE: Acute Toxicity Estimate.
CAS: Chemical Abstracts Service.
IARC: International Agency for Research on Cancer.
IATA: International Air Transport Association.
IMDG: International Maritime Dangerous Goods.
PBT: Persistent, Bioaccumulative and Toxic substance.
RID: European Agreement concerning the International Carriage of Dangerous Goods by Rail.
UN: United Nations.
vPvB: Very Persistent and Very Bioaccumulative.
**Glass Blowing Mineral Wool**

**General information**
All products manufactured by Knauf Insulation are made of non-classified fibres and are certified by EUCEB.

EUCEB, European Certification Board of Mineral Wool Products - www.euceb.org. The EUCEB trademark certifies that the manufactured fibres have a chemical composition within the ranges of exonerated reference fibres, which have been tested in accordance with European protocols and have been shown to be in conformity with Note Q, exoneration criteria for carcinogenicity, of the Regulation (EC) 1272/2008.

The mineral wool producers commit to EUCEB to:
- supply sampling and analysis reports established by laboratories recognized by EUCEB, proving that the fibres comply with one of the four criteria of exoneration described in Note Q,
- be controlled, twice per year, of each production unit by an independent third party recognized by EUCEB (sampling and conformity to the initial chemical composition),
- put in place procedures of internal self-control in each production unit.

Products meeting EUCEB certification requirements can be recognised by the EUCEB logo printed on the packaging.

Further information can be obtained from
www.euceb.org www.knaufinsulation.com
