

## Climacoustic® Duct Wrap

Climacoustic® Duct Wrap is specifically designed as an exterior insulation for rectangular or round sheet metal ducts.

The strong foil facing and premium density of **28kg/m<sup>3</sup>**, makes Climacoustic® Duct Wrap a good solution for surfaces where temperature and condensation must be controlled.

challenge.  
create.  
care.

# Climacoustic® Duct Wrap

**Climacoustic® Duct Wrap is made with high performing glasswool insulation, which contains no added formaldehyde.**

## Features

Rolls knit together

Made using recycled glass

Premium 28kg/m<sup>3</sup> density

Made with ECOSE® Technology

Non-combustible (bulk insulation)

## Benefits

Prevents heat loss

Low dust, easy to cut, softer to touch, faster to install

Sustainable product with inherent fire performance

Superb acoustic performance

Non-combustible bulk insulation won't attribute to the spread of flame

Product Code	Density (kg/m <sup>3</sup> )	Thickness (mm)	Width (mm)	Length (mm)	Area per pack (m <sup>2</sup> )
2400374	28	25	1200	18000	21.60
2400373	28	40	1200	12000	14.40
2400372	28	50	1200	9000	10.80
