**ACOUSTIC FLOOR SLAB PLUS**

**APPLICATIONS**

**DESCRIPTION**

Acoustic Floor Slab Plus is an extra high dense rock mineral wool slab specifically designed to meet the requirements of a floating floor treatment for use in Robust Detail separating floors.

**PERFORMANCE**

**BENEFITS**

- Excellent acoustic and thermal performance
- Excellent compressive strength
- Easy to install

ADDITIONAL INFORMATION

Durability
Acoustic Floor Slab Plus are odourless, rot proof, non-hygroscopic, do not sustain vermin and will not encourage the growth of fungi, mould or bacteria. Acoustic Floor Slabs are non-wicking when tested in accordance with BS 2972:1989 Section 12.

Application
Acoustic Floor Slab Plus is designed for use as the resilient layer in a Floating Floor Treatment (FFT) and meets the specification requirements in accordance with Robust Details Ltd.

Standards

Environmental
Acoustic Floor Slab Plus represent no known threat to the environment and have zero Ozone Depletion Potential and zero Global Warming Potential.

Handling and storage
Acoustic Floor Slab Plus are easy to handle and install, being lightweight and easily cut to size, where necessary. They are supplied in polythene packs which are designed for short term protection only. For longer term protection on site, the product should either be stored indoors, or under cover and off the ground. Acoustic Floor Slab Plus should not be left permanently exposed to the elements.

Knauf Insulation mineral wool products made with ECOSE Technology® benefit from a no added formaldehyde binder, which is up to 70% less energy intensive than traditional binders and is made from rapidly renewable bio-based materials instead of petroleum-based chemicals. The technology has been developed for Knauf Insulation’s glass and rock mineral wool products, enhancing their environmental credentials without affecting the thermal, acoustic or fire performance. Insulation products made with ECOSE Technology® contain no dye or artificial colours.
