

## APPROVED DOCUMENT L 2021 WHAT'S NEW FOR INSTALLERS?

### NEW HOME CARBON EMISSIONS DELIVERED VIA FABRIC & TECHNOLOGY

### THIS MEANS INCREASED SCRUTINY OF INSTALLATION QUALITY

New BREL report for each new home, comparing design stage and as-built specifications

-  **As-built auditing, before key elements of build are concealed**
-  **Photo evidence, showing thermal continuity and quality of insulation**
-  **Reports signed by SAP assessor and developer**

### PROVIDING EVIDENCE OF A QUALITY INSTALLATION NEEDN'T BE A HEADACHE

Work with an insulation partner who supports the process,  
by providing tools that make your job easier.

### TAKE THE PAIN OUT OF REPORTING

Our app-based site reporting system, KinetiK®, provides an instant digital record of Supafil® installations. KinetiK® helps you:

-  **Streamline record-keeping making plot handovers, rebates and guarantees more efficient**
-  **Stand out from the crowd by offering your customers reliable data**
-  **Access future KinetiK® services to strengthen your customer relationships**
